3. Reasons for revision

For the results for the first half of the fiscal year ending March 31, 2025, we anticipate that both sales and profits will fall below our previous projections due to lower-than-expected sales in the fine chemicals segment.

We also expect the full-year consolidated performance to be below prior expectations, with both sales and profits projected to fall short of previous announcements.

Regarding the impact of the Shibukawa factory fire incident that occurred on August 7, 2025, we are currently investigating the situation; therefore, it has not been reflected in our performance outlook. Should a significant impact on performance be anticipated, we will disclose it promptly.

Note: The performance outlooks and other forward-looking statements in this document are based on information currently available to the Company and certain assumptions that the Company deems reasonable, and are not intended to be a promise by the Company that they will be realized. Actual results may differ significantly due to various factors.
